

6 SECRETS TO CREATING WEB CONTENT YOUR CLIENTS WILL LOVE

STEP 1

STEP OUT OF YOUR SHOES

Enter the mind of the audience. What do they know? What are they worried about? What do they need? How can you fill those gaps?

STEP 2

REMEMBER: YOU KNOW WHAT WORKS

You have been at this a long time, so trust your instincts. Use your expertise to create something your audience cares about.

STEP 3

HAVE A PLAN

A single piece of content isn't content marketing. You need a cross-platform strategy.

STEP 6

HOLD YOUR FEET TO THE FIRE

Push yourself and your team. Ask: Is this the best we can do?

STEP 5

LOVE IT OR LEAVE IT

Create work you believe in. You won't be fooling anybody if you don't.

STEP 4

KEEP YOUR EYE ON THE LONG GAME

Results don't happen overnight. Remind yourself. Remind your clients.
